NOTE FOR: Barry Kelly
Special Assistant to the President
for National Security Affairs

SUBJECT: An Opportunity

Attached for your information and action is a copy of some correspondence involving the protection of sensitive US intelligence facilities. We had discussed this idea on occasion over the past few weeks. [redacted]

I think the Office of the President has a highly similar problem to that of US intelligence. And I think this mechanism for US intelligence is an opportunity for White House officers to protect the President's more broadly defined facilities and activities. [redacted]

If I can do anything more here to help, please call. [redacted]
